VOLUME XXXIX

GRAYLING, MICHIGAN, MAY 10, 1917.

What the Housewife Wants to Know

It is a fact that the meats which we sell are far superior to those commonly sold from market; the reason of this is that quality is our first consideration when making our selections. Another reason is that we do not leave it to the discretion of those from whom we buy to deliver what they see fit-we personally inspect every piece of meat which enters our doors, consequently we can guarantee every piece which we sell. The meat question is an important one in every home and we believe that we can convince you that it is to your advantage to patronize our market, if you will give us a fair trial.

PATRIOTIC GRAYLING

STREET PARADE AND PATRI-OTIC PROGRAM.

Major Gansser Delivers Stirring

Just like Grayling always does things-Patriotic day, last week Fri-

day, was one hum-dinger.
Someone has said: "Better do something and fail than not do anything at all." That is true but it is better to do something and succeed. When the citizens of Grayling start out to do something they do it up "Brown," It was quite an undertaking to se

cure autos enough to carry about 600 school children besides the members of the G. A. R., the drivers and others. Promptly at 3:00 p. m. school was dis-missed and the little tots from the kindergarten room all carrying flags filed out to the awaiting autos. They were soon followed by the other grade: in order of their number.

of a committee from the Grayling board of trade, and prior to the closing Andrew Thompson, Clyne McDer- of the schools each child had been provided with a good sized U. S. flag. All the children of the South side school were provided for with autos changes made in our school this year. and nearly all of those in the central As it was before, the pupil failed in school with the exception of about 50 all subjects or none. This year he high school pupils; these latter enter-

passes by subjects and not by grades. ed the parade in double file. Charles Amidon as marshal of the The Geography class under Miss Cornish are investigating our food day, wore a drum major's uniform problem. Some of the questions in and carried a saber and was mounted vestigated are: How much wheat we upon a white horse. He had arranged to ride at the head of the parade begrow; how much it costs to make flour; tween two mounted color bearers however the horses of the latter, Percy Failing and Victor Spies became frightened at the flags and ran away, the latter being thrown to the ground The horses were abandoned and the boys walked, while the flags were carstubborn backache is cause to ried by Howard-Peterson and Thomas suspect kidney trouble. EMIL KRAUS

Dry Goods, Shoes and Wearing Apparel

There are several reasons why this store is so popular with the people of Gray-ling and vicinity.

First-Our motto is to carry as nearly as possible just the variety of merchandise as the buying public want.

Second—We aim to sell goods of merit and equal to any of similar or higher cost.

Third-No stock in Michigan is complete but this store is always ready to obtain for our rustomers anything that is manufactured, back of which we stand responsible, just as tho it was taken off our shelves.

Fourth-Every person entering this store is sure to be accorded utmost courtesy.

Fifth-It is our desire that you increase your patronage with us and also that you bring your friends here. We want your friendship as well as patronage and will do our utmost to make things so agreeable that you will think of the Emil Kraus Dry Goods Store as your down-town headquarters. You are now and always heartily welcome.

HOW TO FIGURE OUT BUILDING EXPENSES

Expert Advises Against Big Debt Running Over Long Period of Years.

TAKE QUALITY BEFORE SIZE

House Described Mere Will Satisfy Most Discriminative if Plans Are Followed Carefully in All Details

By WILLIAM A. RADFORD.

Mr. William A. Radford will answer questions and give advice FREE OF COST on all subjects pertaining to the subject of building, for the readers of this ubject of building, for the reducts of sapar, *On account of his wide experience sapar, *On account of his wide experience sapar Manufacturer, he Editor, Author and Manufacturer, he without doubt, the highest authority on all these subjects, Address all inquiries to William A. Radford, No. 1827 Prairie avenue, Chicago, Ill., and only enclose two-cent stamp for reply.

There is little satisfaction gained by the man who goes into the building of a home blindly. In most cases such a man oversteps himself, gets hopelessly in debt and condemns the home building idea because of his own folly. Most people obtain such pleasure out of owning their own home that they are willing to make some sacrifice to obtain it. However, if this sacrifice takes the proportions of a burden which must be carried for too long a time, sts oppression will over-shadow the pleasure which should be obtained from the home.

This does not mean that a man is wrong in going into debt to obtain a home. It means that he think well and figure carefully before taking action. If he can easily clear up all-inquality materials and quality workdebtedness in three or perhaps five manship should be given preference years, he is justified in going into the over size of structure and fast con-

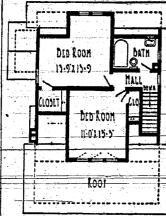

his probable resources over the period the estimate, an amount up to, say, which he is willing to give to pay 5 per cent of the estimated cost of the ing for his home. The man who has house. Having followed out all of the current expenses accurately is very live home builder may reasonably ex much better able to handle the problem than the man who has only his satisfaction out of his investment in memory to help him. Suppose the prospective home builder decides that over his expense account for the preceding five years and determine as closely as possible what his yearly expense has been for food, clothing, pleasure, sickness and all other such tems, exclusive of rent.

If his expenses have shown an increase over the five-year period, it is

which has been earning interest, this interest will cease coming in. The interest amounts will probably balance one another, since in one case an is practically equal, for a like principal, to the amount which must be said out, in the other case. The difference in the two cases, then, comes down to a matter of the principal alone: If the house-construction cost is paid all or in part with borrowed money, the expenses over the five-year period will be greater by the amount borrowed than they would be if the money was all in hand at the time of building.

Having determined as nearly as posible the amount which is to be invested in the house, the final expenses should be estimated. These will include probable taxes and sewer assessments and principal with interest on any money borrowed. This amount addded to the original mount computed.

Regarding the house itself, there are two principal things which should

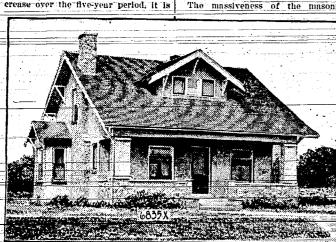

Second-Floor Plan

matter of a home with bis architect struction. The second is that there and builder. His first step in the analysis of the pense connected with the erection of problem should be carefully to figure a house which does not show up in ormed the habit of recording his calculations accurately, the prospectthe a home.

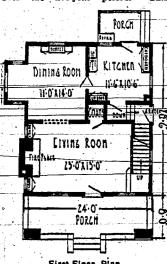

The accompanying illustrations he is willing to build if he can clear present a type of house which is a the same time attractive and subpresent a type of house which is atstantial. It is not very often that the combination of stone masonry and stucit is a peculiar fact, for the appearance of a structure built in this is altogether pleasing and satisfac

tory.

The massiveness of the masonry

probable that he should estimate a work fits well into the design and the like increase over the next period of five years. This data should be to the smallest detail. Stone is used worked over carefully so that an act in building the porch walls and the curate estimate of probable expenses chimney. The porch columns are built

HAY SUPPLY FOR DAIRY COWS

Roughages Are Relatively Cheaps Than Grain, but Should Not Be Fed Exclusively.

"Because of the large hay crop and the small demand for it now, roughages should be fed to the limit of the dairy cow's capacity, says Prof. C. C. Hayden of the Ohio experiment station. "Relatively, the roughages, like hay and corn stover, are much cheaper than grains, and hay is of unusually good quality. Roughage, of course, should not be fed exclusively, as such feeding might lead to compaction and death, even in dry cows and helfers. Some grain is needed in every dairy ration."

This dairy specialist also declares "Choice alfalfa hay at \$20 a ton is cheaper than bran at \$30. Our experiments show that soy bean hay is in the same class as alfalfa, and clover is third. With corn at \$1 a bushel, clover hay should be worth about \$20 a ton, or \$5 more than it is now quoted."

Timothy hay is recommended for milking cows only in small quantities, to peplace such grains as corn and hominy. Leguminous roughages have proved far superior in numerous experiments to timothy for cows in milk.

Government Issues Warning Against Fly Poisons

Following is an extract from "The Transmission of Disease by Files," Supplement No. 29 to the Public Health Reports, April, 1916.

Health Reports, April, 1916.

"Of other fly poisons mentioned, mention should be made, merely for a purpose of condemnation, of those composed of arsenic. Fatal cases of poisoning of children through the use of such compounds are far too frequent, and owing to the resemblance of arsenical poisoning to summer diarrhes and cholers infantum, it is believed that the cases reported do not, by say means, comprise the total. Arsenical fly-destroying devices must be rated as extremely daugerous, and should never be used, even if other measures are not at hand."

106 fly poisoning cases have been re-ported by the press within the last three years. As stated above this num-ber is but a fraction of the real number. Protect-your children by using the safe, efficient, non-poisonous fly esteber

SULPHUR FROM SMELTER GAS

Methods of Handling Fumes Propos by University Professor Regarded as Most Important.

In regard to getting the sulp fumes out of smelter gas, Prof. S. Young of the Leland Stanford unive sity intely presented to the American Institute of Chemical Engineers a paper on proposed methods whereby the result of the process is crude sulphur. the sulphur away from the metal. This is easy enough to do, but the fumes that escape into the air are the fumes of sulphurous acid, and if there is anything that disposes a farmer to carry a pitchfork and a double-barreled shotgun along with him when he goes to make his protest it is these very sulphurous fumes in the air. In fact n-some states-the laws now forbid-the liberation of the gases of hurning sulphur in nearly every activity except that of volcanoes. Volcanoes are ex-

It is possible to collect this sulphurous gas and make sulphuric acid out of it, but some plants are so located that transportation costs forbid. Sulphur, on the other hand, may be store out of doors so long as desired and sold whenever there is a good price available for it.

Two methods are known, a wet one and a dry one, but both depend upon the tendency of sulphur to get out of combination with oxygen in the pres ence of certain other bodies. Vast quontities are likely to be thus pro-

duced. Ellwood Hendrick Tit for Tat.

There was an uprour in the nursery and papa rushed upstairs to inquire into the cause. "Now, then, children, what's all this noise? Stop it at once!

"Boo-boo!" sobbed Eva "Billy

"Billy kicked you? Billy, how dare you kick your little sister? You coward, to kick a girl! Don't you know it's only donkeys that kick? If I hear of-this again I'll give you tit for tat, and kick you!"

TRICK WAS COSTLY TO HIM Gonjurer Who "Found" Coins or Street Car Floor Forced by Con-

ductor to Turn Over Money. A conjurer performing at a local theater got on a street car with two members of his company, and after a while, moved by some sudden impulse, he pretended to find sundry quarters, stooping her and there, and producing

them from under the seats, on the

floor anywhere, to the amazement of the passengers, says the Toronto Mail. His two friends laughed heartily at the loke. Not so, however, the conductor, who came forward and sternly de ard. manded the twelve 25-cent pieces he had "picked up," in order that he might hand them over in accordance with the regulations governing lost

property found in the cars. In vain did the "finder" protest that was only a conjuring trick. The conductor obviously did not believe him. And in the end, in order to avold a compulsory visit to the police station, he had to give up the coins.

Matches Illuminated Town. In a Midland town a number of Mersons were fined for striking iftches in the streets on the night of an air raid. The offense m y appear to be a trivial one on the fuce of it, but it is really not so, says of visibility tests with certain kinds of light it was noted that on a dark night the light of an ordinary match was easily visible at a distance of a mile. Hostite nircraft do not, as a rule, fly it-as-low-an-altitude as a mile, and on the basis of the test just noted the striking of a single match would be without import. But, according to the evidence of a police superintendent, although the street lamps were all extinguished during the raid; there was almost as much light as though they had been lit, owing to peo ple striking matches to light pipes and

Canadian Farmers Profit From Wheat

an unusual demand for grain from the American Continent. The people of the world must be fed and wheat near \$2 a bushel offers great profits to the farmer. Canada's invitation is therefore, especially attractive. She wants settlers to make money and happy, prosperous homes for themselves by helping her raise immense wheat crops. You can get a Homestead of 160 acres FREE and other lands at remarkably low prices. During many years Canadian wheat fields have averaged 20 bushels to the acre many yields as high as 45 bushels to the acre. Wooderful crops also of Gats, Early and Fraz.

WILL HUNGER COME?

We may put it down as a self evident fact that if the people of this country persist, during the coming year, in living on the same extravagant scale of former years, we as a na tion will strike the rocks.

Experts in the agricultural depart ment have estimated that the actual waste of food in the United States is \$700,000,000 annually. This is in addition to the enormous consumption in excess of what is really needed to support life comfortably.

The International Institute of Agri culture sends this solemn warning from Rome: "The world's food crop is deficient and the situation is becoming alarming. "

Now we are doing much talking as to the duty of raising bumper crops. of increasing our production in every way possible, which is perfectly right But more than this is needed. We must act as well as talk.

Heretofore the United States has al ways had a safe surplus of foodstuffs from one harvest when the next was garnered. This very fact, possibly, has had more to do with fostering our extravagance than anything else. We time the officers will be installed by have felt that our resources were poundless and that we could never Commander of Michigan. Each mem-

Now, however, that surplus has vanished, and in its place we have only gold, the most useless commodity in the world unless it can be exchanged for that which we need. And at last we must wake up and face the fact that we are up against a food shortage, foud exists.

The solution of the food problem is up to every man, woman and child in the country. It-is-useless to mince words for fear of hurting some one's feelings-EXTRAVAGANCE AND WASTE MUST CEASE. It is useless to undertake to solace ourselves with the prospect of a large increase in production. That of itself will not relieve the situation if extravagance continues. ALL must exert themselves to PRODUCE, and ALL must exert

You, our farmer friend, because you have plenty and are raising plenty more, have NO RIGHT to waste that plenty or to throw it away in needless extravagance. Others will NEED it, and it is their RIGHT that they should be able to get it. You, Mr. Rich man, just because you have plenty of money to pay for it, have no RIGHT to waste that which OTHERS NEED, and of

Let us not be deceived. It is up to conserve the food supply. Food waste this year will be nothing less than a CRIME, and should be so recognized

A few months ago, when gold was atreams, we strutted and boasted of friends and kind neighbors for the we are in grave danger of finding our are also very grateful to Rev. Mitchell a task that most women consider plenselves in his predicament—our gold for his words of comfort, to the singty, but Mrs. Elizabeth Molineux, until useless because we can not eat it.

\$2000 in a single year from this land, conditions once he had gotten it under cultiva. carried. tion. "This represented, in effect, 2000 per cent increase over the original in vestment. A Louisiana specialty which has put many dollars into the pockets of owners of newly cleared and, is peanuts. In this state, cutover land, originally costing from \$8 to \$25 an acre, commonly yields sixty

bushels of peanuts per acre. A farmer bought a tract of 250 acre covered with stumps, logs and brush at \$25 an acre. This land was cleared dinances." and cultivated, and in one year pro duced at the rate of 110 bushels of oats -per-acre and over twenty-two tons of

corn per acre. This farmer also grew all kinds o grasses, vegetables and fine fruit. It is not necessary to multiply ex fact has been repeatedly demonstrated hat the uncleared land often is more fertile than the land already under cultivation. And modern methods and machinery make land clearing a rea sonably cheap and practical under

TEACHING INDIANS IS THIS WOMAN'S HOBBY

taking for the average farm-owner

Mrs. Molineux Declares Red Man Can Be Led, but Will Not Be Driven.

Salt Lake City.-To have mothered recently a teacher in the United States Indian service, has the distinction of having mothered a whole tribe of Plute Indians, and claims the satisfaction of having raised them, old and young condition bordering on the squalid state where they consider cleanliness next to godliness and, one and all, are heartily in favor of both.

Mrs. Molineux recently resigned her post as teacher on the Shivwits reservation in southern Utah and is in Salt Lake resting preparatory to going to Ketchikan, Alaska, to take charge of the Episcopal church's mission school there. She is a guest at the home of the Right Rev. Paul Jones, bishop of the Episcopal diocese of

while here. Indians have become a hobby with this diminutive little Scotchwoman. She speaks their languages and in her eight years of service with the Indian department has been intimately assodetermined has been infilmately asso-clated with the trials and fribulations that beset poor Lo on his native heath. Mrs. Molineux is an argient church-woman and attributes her success in dealing with Indians to the fact that by blending religious tenchings with the "three R's" she has dismissed distrust of her from the minds of her charges and has always been regarded by them more in the light of a friend dian mind to be susceptible to teaching if properly approached, but adds that he can be led but will not be driven.

OPERATION OF **NEW DRAFT LAW**

Official Instructions Concerning the Raising of Military Forces Determined On.

POLLING PLACES TO BE USED

All Persons Within the Age Limits Prescribed by the Law Must Present Themselvas There-Governors of States at Head of Registration Work.

Washington,-With the object of stimulating publicity to the work of raising the military forces called for under the army draft law the war department has issued the following in-

There was a time in the country's history when military enumerators, backed by bayonote, went out among the people to take a compulsory service census. Today, under the prin-ciple of universal liability to service, the execution of the law is put into the hands of the

. The approval of the new national army bill and the president's proclamathereunder have been coincident. All persons within the age limits prescribed are required to present them selves for registration at the customary voting places in the voting precincts in which they have their permanent homes, on a day which the president will announce.

The governor of each state is the chief of registration therein. The machinery of registration in each county is in charge of the sheriff, the county clerk, and the county physician, ac ing ex officio, unless a different board shall be announced by the governor. In cities containing populations of more than 30,000, the registration will be under the control of the mayor and selected boards of registration. In order that the disignated county and city officials, and the people generally, can ret a clear understanding of the sus methods the following brief outline is given:

The sheriffs, or other designated officials, immediately upon receiving no tice from the governor, shall appoint registrars for each voting precinct.

Apportionment of Registrars.

The proportion of registrars shall be one for each 170 persons to be registered. Each age to be registered will comprise about 1 per cent of the popu

If, for instance, all men between nineteen and twenty-five years of age inclusive, are to be registered, the reg-Istrar would have to enroll about 7 per cent-of the precinct population. It is desirable to accept the services of competent volunteer registrars to serve without compensation. 'All registrars must be sworn.

The voting place in each precinct must be prepared for registration. Full printed instructions covering every de-tail of registration will be in the hands of sheriffs and mayors on the fifth day after the president's proclamation.

Cities of Over 30,000 Population. The mayor of a city containing more than 30,000 inhabitants, or the officials designated by the governor therein, shall, with approval of the governor appoint for each ward or convenient minor subdivision containing about 30.ople one registration board, and shall designate one officer of each board to perform duties similar to those imposed on the sheriff as hore tofore outlined. If the mayor desires, he may appoint a central board to coordinate the work of minor boards. Duties of County Clarks. Clerks of Cities of Over 30,000

_People.-On the fifth day after the president has issued his proclamation, clerks of counties and cities of over 30,000 must secure a supply of blanks and contoc of the registration regulations from the sheriff or from the mayor. Absentees and the sick will apply to such clerks to have their registration cards filled out. In no case shall such persons be given registration certificates They are to be instructed by the clerk that the burden is on thom to see to H that the cards reach the registrars of their home precincts by registration day.

Absentees and the Sick. Persons absent from counties may be registered by mail. If so absent, a man should go to the clerk of the county where he may be staying, on the sixth day after the date of the president's proclamation. If he is in a city of over 30,000 population, the city clerk is the official to whom to apply. The absentee will be told how to register, but he must mail his card in time to reach his precinct by registration day.

Persons too sick to present them selves for registration must send a competent person to the county or city clerk on the sixth day after the issuing of the proclamation. The clerk will give instructions for registration, Colleges, Universities, Homes and Oth-

Officials of educational, charitable and other institutions should apply for instructions to the county or city clerk on the sixth day after the date of the proclamation for instructions as to a convenient method of registration.

The wardens of jails, penitentiaries,

and reformatories should apply to the county or city clerk for instructions on

the sixth day.

Five days after the date of the pres ident's proclamation complete regula-tions will be in the hands of all sheriffs and of the officials of cities of over 30,000 population.

The president is authorized to call

upon all public officers to assist in the execution of the law. The plan is, however, to rely on the people for the proper execution of the law. It is exsected that patriotic citizens will offer their services free as registrars. Such services will be gratefully acknowledged. Volunteers for this service should-communicate immediately with the proper official.

BANKS ASKED TO CO-OPERATE

Secretary Authorizes Financial Institutions to Receive Subscriptions for the Bond Offerings.

Washington.—Secretary McAdoo telegraphed the entire list of 27,513 nation il and state banks and trust companie in the United States, authorizing them to receive subscriptions for the \$2,000,-000,000 bond offering, enlisting their co-operation, and requesting them to telegraph a rough estimate of the amount of bonds each would take for itself and its patrons,

"You can render an invaluable service to your country," Mr. McAdoo told the banks, "by receiving subscriptions and co-operating with the federal reserve bank in your district."

Loan Subscriptions Pour In. To all clearing house associations in the country Mr. McAdoo sent a tele

grum in which he said:
"The amount of the initial loan has been determined by the needs of the government and not arbitrarily. The enthusiastic-and-patriotic co-operation of the banks and bankers of the coun try will guarantee the success of the undertaking."

The result of the first announcement f the loan has been a deluge of sub scriptions, aggregating many millions. Most of these came in by wire to the treasury. Virtually every large city and every state in the Union was rep-

Lend \$100,000,000 to Italy.

Negotiations continued today with epresentatives of the nations to which the United States is extending credit. Count di Collere, the Italian ambassador, received the full amount of the first \$100,000,000 loan made by this government to Italy.

Subscriptions to the second offering of treasury certificates were received during the day by the federal reserve banks. Indications are that the secretary will call for the proceeds within week, possibly a few days.

The \$100,000,000 loan to France will be turned over to Ambassador Jusserand, in whole or part, within a day or

MAY CENTER IN WASHINGTON

Probability That One Committee Will Purchase All Supplies Needed by the Allied Countries

Washington.-Creation of a central purchasing committee in Washington for all supplies bought in the United States for the allied governments was forecast here by Sir Hardman Lever, financial expert of the British was The committee will supplant I. P. Morgan-&-Co.

Discussing the world financial situation, the British expert expressed the opinion that Germany will be practically bankrupt in the credit markets

after the war.
"Our enemies," he said, "for all their boasted efficiency, have never had the war is over they will be hard put to

The Teutonic governments having pyramided one internal loan upon another, he explained, their interest so great that he believed they would either have to repudiate a large part of their debt or face nability to buy the ennous quanti-

econstruction. The allies, he added, had paid their way in the war "by the straightforward and natural means, by pouring out-their gold, by selling enormous masses of American securities, by rais ing loans." As a result, he predicted that the end of the war would find the allies in good shape financially, despite their enormous permanent debts.

ARMY ENGINEERS SEE SERVICE FIRST

TRAINED RAILWAY MEN FIRST AMERICAN TROOPS TO BE SENT TO FRANCE.

12,000 MEN IN EXPEDITION

Detroit Is One of the Nine Great Railway Centers Asked to Recruit Men Needed.

Washington-Nine new regiments of army engineers, to be composed exclusively of highly trained railway men. will be the first American troops to be sent to France.

They will go "at the earliest possi-ble moment," the war department announced, for work on communication lines, but speculation as to exactly when or to what points they will be sent is forbidden because of the submarine menace.

The new forces will be volunteers raised at the nine great railway cen-ters of the country. Each regiment will be commanded by an engineer colonel of the regular army aided by an adjutant. All other officers will be railway engineers or officials.

The recruiting points will be New York, Chicago, St. Louis, Pittsburg, Detroit, Atlanta, San Francisco and Philadelphia. The expedition will have a total

strength of between 11,000 and 12,000 men, each regiment being composed of two battalions of three companies Every branch of railway workers necessary to the building or operation of lines will be represented in the ranks and the war department expects response to the call that will permit

a careful selection to be exercised and

insure a force already trained to the minute, an army of experts in railway operation. Recruiting for the regiments and borers in all the shops in the town of the organization of each force will be Vestervik. The inborers quit work directly under the colonel of each regiat noon and, forming a procession, vis. ment. Recruiting machinery of the regular army or the national guard will be placed at their service and it vill-take-little-time-

TWO ROOKIE FLYERS KILLED

Plane in Which They Were "Joy Riding" Falls 2,000 Feet.

New York-Privates Peter Merritt. of Rosoevelt, N. Y., and John Spileno, Tonawanda, N. Y., who have been training at the army aviation school at Hempstead, L. 1. were killed when they took an airplane aloft without permission. Their machine fell about 2,000 feet.

Neither man ever, had handled a machine before, nor had taken, any actual instructions in handling craft, although both had been aloft as observers.
Unnoticed by the authorities, the

men started on their wild aerial joy-ride in an "L. W. F." biplane. After being aloft about half an hour, the machine suddenly-shot downward and both were instantly killed.

Speciators were divided as to whether the gasoline tank exploded or the men lost control of the craft.

ALLIES NEED 2,000 DOCTORS

Medical Men and Ambulance Attendants Needed at Front.

-Chicago-England and France are in immediate need of 2,000 medical officers and 5.000 ambulance attendants according to a statement issued by Dr. Franklin Martin, head of the medical division of the Council of National

Defense trained medical men and reminds Amto the call of their allies.

Six Red Cross base hospital units with 24 doctors, 50 nurses, and a supporting personnel; aggregating 196 each, have been ordered by the war department, to France for immediate One hundred and ten hospital units

with approximately 3,000 automobile

ambulances and 5.000 men asked for

ESTIMATES BASED ON REPORTS FROM ALL PARTS OF STATE SHOW BAD SLUMP.

PEACH CROP HARDEST HIT

Wheat Shows Decline From April-About 6 Per Cent Winter Killed And Will Be Plowed Up.

(From Our Special Correspondent) Lansing.

Optimists who can't find anything to worry about in the face of the world-wide food shortage are respectfully referred to the May crop report issued by Secretary of State Vaughan. Here is the condition of some of the Michigan crops as estimated in that

Wheat-6 per cent worse than in April. Peaches-Crop less than half 1916

Fruits in general-7 per cent less than in 1916.

The condition of wheat was given

Correspondents estimate that 6 per cent of the wheat crops was winter killed and will be plowed up while the damage by Hessian fly amounts to 2 per cent.

The average condition of rye in the state is 86, the condition one year ago was 88.

The condition of meadows and pasture is 86. The acreage of clover sown as compared with last year is Acreage of clover that will plowed up because winter killed or otherwise destroyed is 7 per cent. The acreage of oats sown or that will be sown as compared with last years is 104.

The prospect for the fruit crop in the state, peaches excepted, averages 7 per cent less than it did May 1, 1916. The average prospect for peaches in the Michigan fruit belt is 30 per One year ago it was 79 per cent in the same territory

Sunday, May 13 "Mothers' Day," Gov. Sleeper has officially designated

Sunday, May 13, as "Mothers' Day," issuing the following proclamation to the people:

"Our American civilization is built around the home. The heart of the home is the mother. What is there in all the realm of art that stands higher, more commanding, more beautiful, than a simple, refined, gracious woman in her household; a woman whose daily life is an outpouring of the gospel of service, who is worshipby her children, beloved by her husband and who rules in her home by sweetness, by gentleness, by self denial, by love? The mothers of the land are engaged in the noblest of all callings, the rearing of their sons and daughters to take their places as use ful members of society.

"As we, whose mothers have left us look back through the years, how the mother in the old home: All her life was a beauteous-life. It ran-like a rill down the hillside and sang all the time. It was like flowers that know no summer and no winter. The memory of it-kindles in us still the supremest affection and arouses the finest enthusiasm of our hearts.

"Therefore, that we may pay a spe-cial tribute of affection to the mothers gtill live and honor the memory of the mothers who have gone from us, I, Albert E. Sleeper, governor of the state of Michigan, do hereby desig nate and set aside Sunday, May 13th as Mothers' Day; and I call upon our people, both young and old, to gather their several places of worship, and take part in services appropriate to the day and, by the wearing of a red flower for the living mother and a white for the dear departed, to symbolize their love and reverence for the mothers of the nation.

'In accordance with a resolution of the congress of the United States, I further request the people of Michigan, on the day aforesaid to display United States flag in their homes and in other suitable places, as a fitting expression of their desire to pay homage to American motherhood."

Navy Buys Butter in State.

Through efforts of the state dairy commission, Michigan creameries have been given contracts for 350,000 pounds of butter for the United States navy. It is distributed as follows: Parma, 100,000 pounds in tubs, three cents over Elgin price; Gobleville. 100,000 pounds in tins, seven cents over: Fremont, 100,000 pounds in tins, seven cents over; Reeman, 50,000 pounds in tins, seven cents over. The prices "over Elgin" are to cover the cost of packing in tin and tubs, which is not included in Elgin prices.

A naval recruiting station will be opened at Ann Arbor May 16.

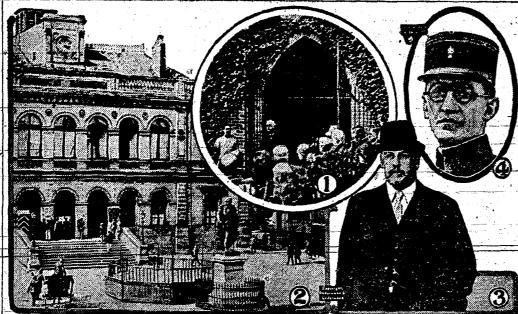

A Sunday of prayer for good crops s being suggested by farmers to the Michigan Agricultural college officials The auggestion, it is expected, will result in a request to the governor for a proclamation for a crop Sun-

The continued wet and cold weather in central Michigan is making farmers extremely pessimistic. They are apprehensive of a repetition of the last year when the cold and wet spring retarded planting and the dry spell bured half the crops up.

State schools representing approximately 866,000 school children will share in the apportionment of primary school money next July, according to estimates prepared by Superintendent of Public Instruction Keeler.

During the last year the number of children of school age in Michigan has increased approximately \$1,000.

The rate par capita will be \$6.50 this year. For 1916 the rate per capita was \$7.70. The 19.7 per capita apportionment is the lowest in ser-

1. Mr. Balfour paying tribute to George Washington during the visit of the allied war commissions to Mount Vernon. 2. German military headquarters at Laon, one of the important towns on the Hindenburg line. 3, M. Rodzianko, president of the Russian duma and one of the strongest men in the new government. 4. Capt. Charles of the French Foreign Legion, who has come to America to give our officers pointers on trench warfare and the use of "tanks."

NEWS REVIEW OF

America in War to the Finish, and Allies Rely on Her for the Victory.

U-BOAT MENACE IS GROWING

Conflict Will Be Long and Not Easily Won-British and Erench Commissions Urge Early Dispatch of United States Troops to Ецгоре.

By EDWARD W. PICKARD.

many to the finish, according to the verbal pledge given the British and French commissioners by President Wilson and according to the spirit of French determination shown by the govern-ment and the people. And it is high time, for the entente allies virtually admit their hopes of victory are now founded on the assistance to be given by the United States.

This dependence upon America has been brought about mainly by two cirbuild them, and though the United cumstances-the increasing success of Germany's U-boat campaign and the disorganized state of affairs in Rus-
